

Piezoelectric Ultrasonic Sensors

:: Scope of application

- 1、The remote control device of household appliances and other electronic equipment
- 2、Supersound distance finding, automobile change bus anti-collision device and near to answer the switch ultrasonic wave
- 3、The ultrasonic wave of guarding against theft, taking precautions against natural calamities equipment is launched and receive

::The characteristic of the products

- 1.High sensitivity, high dependability, high stability
- 2.Able to bear high, low temperatures, able to bear humidity, able to bear assault, vibration ,etc.
harsh environmental terms

:: Performance

Type	type size					The characteristic of normal temperature			
	D	d	H	h	f	centre frequency	Sensitivity	export sound and press	the capacity of static
TX-40K	12.6	0.7	16	9.5	8.5	40		>112dB	2000
RX-40K	12.6	0.7	16	9.5	8.5	40	>-76dB		2000
