

3-PIN arrestor (230V) Model: SL1122A230

Features:

- 1- RoHs Compliant
- 2- Excellent response to fast rising transients.
- 3- Flat response up to $10\text{KV}/\mu\text{S}$.
- 4- 10KA surge capability tested with $8/20\mu\text{S}$ pulse as defined by IEC 61000-4-5
- 5- SAD ensures short circuit failure mode in the event of severe transient overload.
- 6- Thermal failsafe.

Applications:

- 1- MDF protection
- 2- Alarm panels.
- 3- ADSL equipment.
- 4- XDSL equipment.
- 5- General Telecom Equipment

Specifications:

Part Number	SL1122A230
DC Voltage (V)	230
Breakover Voltage (V)	184-276
Max Dynamic Breakover Voltage @ $1\text{ kV}/\mu\text{s}$ (Vbr)	350
Max Repetitive Impulse Discharge Current (kA)	5
Max Repetitive Impulse Discharge Current (kA)	10
Alternating Discharge Current (A)	5
Insulation Resistance (Ω)	1×10^8 @ 150V
Max Capacitance (pF)	100
Holdover Voltage (V)	135
Nominal On-State Voltage @ 1A (V)	20
