

Illuminated Magnifier

Model: MG6B-1

- Hand-held magnifier, 40x power, 21mm dia, high power
- With 2 super LED lamps, high brightness can make the magnifier clearer, using 3 AAA batteries. (not included)
- Handle adopts hand-held shape that conforms to ergonomics design. Handle end part has round-shaped small holes arranged into butterfly shape, which is not only beautiful but also can increase frictional force, and can ensure comfortable hand feeling and the magnifier will not slip off one's hand easily when holding the magnifier by hand.
- Suitable for industry purpose, coin and stamp, circuit board and printing industry, education, medical science, geography, gardening and home, office.

Made in China
