

Microscope with camera

Description:

- 1- Microscope magnification: 30X max.
- 2- Use it to check circuit boards and pins clearly without other tools.
- 3- Independently developed display software, supporting image capture, record, instant image print etc.
- 4- You can save circuit images captured and the whole operating process by easy clicks.

This Microscope is most suitable for:

- 1- circuit trouble check
- 2- weld empty check
- 3- FPC / circuit copy
- 4- Demo

It is widely used in the domain of electronics, medical treatment, education etc.

Function:

- 1- Magnification: 30X max
- 2- Capture image
- 3- Print instant image
- 4- Record operating process
- 5- Microscope is able to print and check circuit at will.

Microscope is able to partly copy FPC and capture the circuit images
