

22 LED POWER 5W WHITE

Specifications:

5W High Power LED

Current: 700mA

Voltage: 6.6 to 7.2V

Luminosity: 350 to 500lm

Beam angle: 120 degrees

5W High Power LED

- More energy efficient than incandescent and most halogen lamps
- High flux out
- Very low decay
- Long working lifespan: >50,000 hours
- Low voltage DC operated
- Anti UV
- Environment friendly
- Superior ESD protection
- Green product
- Specifications:
 - Power: 5W
 - Beam angle: 120 degrees
 - Forward:
 - Current: 700mA
 - Voltage: 6.6 to 7.2V
- Luminous: 350 to 500lm for different model number
- LED colors: warm white, pure white or cool white
- Color temperature: 6000K
- Application: road light, solar light, alarm light, flashlight or miner's lamp, and more
