

Lead Acid Battery Charger

Model: MW12200C

- Fully automatic battery charger is ideal for charging 6V or 12V LEAD ACID rechargeable battery.
- The charger has 5 LED lights.
- It indicates the charging process and also the capacity of lead-acid battery.

Input Voltage	220 VAC
Input Voltage Frequency	50 Hz
Input Voltage Range	220~240 VAC
DC Output Voltage	6V / 12V
Insulation (1 minute DC 500V)	Resistance > 100 MΩ
Withstand Voltage	2.5 KV
