

LITHIUM 3.6V LISUN ER26500

Specification:

No.	Items	Characteristics
1	Nominal Capacity	9000mAh (Continuously discharged under 2mA current till 2.0V end-point voltage at the temperature of 23°C±3°C)
2	Nominal Voltage	3.6V
3	Operating Temperature Range	-40~+85°C
4	Self-discharge Rate per Year	≤1%
5	Max. Pulse Current	400 mA
6	Max. Continuous Discharge Current	230 mA
7	Structures	thionyl chloride, lithium anode, acetylene black, separator, and stainless steel cell shell etc.
8	Weight for reference	52 g

Made in China
