

Lithium Battery Charger HXY-18650-2A

Specifications:

1. input:100-240VAC 50/60Hz
2. Output : DC 4.2V 1A * 2
3. charger 18650 17670 18700 battery
- 4-Batteries Type : 18650 18700 3.6V/3.7V Li-ion battery
- 5-Material: Plastic
- 6-Size(mm): 105(L)×60(W)
- 7-Weight(g): 136/162
- 8-Color: black
- 9-Packing Size: 150(L)X85(W)X42(H)
- 10-Accessories: 1 / 2 pcs of 18650 3.7V battery

Features:

1. Charge two pieces of 18650 cylindrical Lithium battery simultaneously And independently
2. Cost effective, high efficiency and reliability.
3. Constant current and voltage (CC, CV mode)
4. Built in over voltage, over current and short circuit protection
5. LED Status:
Each separate battery has three-colors LED light indicator, RED-charging, GREEN- full and no battery, GREEN-set battery with wrong polarity
6. Safety Standard: CE

Made in China
