

SOLAR PANEL CONTROLLER 12V 10A

Technical Specification:

Operating Voltage: 12Volt (10V-18V)

Self-consumption: 6mA maximum

Max current for solar panel & load: 10A

Type of Charging: 4x series stages = Bulk, PWM, Boost & Float

Regulation voltage: 14.4 V

Load disconnect: 11.1V

Load reconnect: 12.6V

LED indications: Charging state, Battery levels, Load status

Auto lighting mode: 15 modes

Manual on/off mode: 1 mode

Terminals: Total of 6 (2 each for Solar, Battery & Load)

Device dimension: 14cm x 9cm

Device thickness: 2.7cm

Weight: 250 g.

Made In China
