

DIGITAL THERMOMETER

Model: MTW-0202

Specifications:

- 1-Temperature range: -50 C(-58 F)~ +70 C(158 F)
- 2-Precision : ± 1 C (± 2 F)
- 3-Resolution: >-20 C is 0.1 ≤ -20 C is 1.0 C
 >-4 F is 0.1 F ≤ -4 F is 1.0 F)
- 4-Supply mode: section 7 battery note: the goods without batteries

Commodity characteristics:

MTW - 0202 digital thermometer volume is small and exquisite, the outward appearance is exquisite, inner and outer double 1k temperature measurement, has the clock function, can switch Celsius degrees Fahrenheit. Can be either for refrigerator, air conditioning refrigeration equipment maintenance temperature measuring tools, also can be used in many cases as family, office of temperature measurement used.

Made in China
