

MOSQUITO RACKET BIG

Specifications:

Net Width: 18.5 cm Battery: two AA size rechargeable batteries.

Net Length: 24 cm Voltage: 3500 V-4200V

Handle Length: 24.5 cm Color: Yellow. Green. Red. Blue

Handle Width: 3.9 cm Packing: Plastic Color Bag

Pat Length: 47.5cm Net Surface: Electroplating Iron Net

Major Features:

1. Re-charging type: the bat is used with two 1.2v rechargeable super quality batteries.
2. This bat can be used as mini emergency lamp when it is charging up, and the illuminating lamp will light automatically when the AC power is cut off.
3. Double-speed: the bat adopts new technology of double-speed discharge circuit. It discharges an instant high-voltage up to 3,000v-4000v, which produces effective shocks to mosquitoes.
4. Shock-free: The bat gives fatal shocks to mosquitoes stinging on skin but it is safe to human body. There is no shocking to hands while touching the bat net, both safe and practical
