

MOSQUITO RACKET SM

Features:

1. Rechargeable: this racket is with two 1.2V superior rechargeable batteries. Can be recharged more than 600 times circularly. ECONOMY!
2. Di-speed: utilize pioneer di-speed discharge circuit. Momentary output voltage is up to 2300V to kill the mosquitoes and flies. EXCELLENCE!
3. No electric shock: it can shoot down the mosquito, which is sucking blood and no harm to body. When hands touch the net cover, also no electric shock. SAFETY UTILITY!
4. None escape unpunished: it is made of special tri-layers of net. So mosquitoes and flies are easy fly into but hard fly out.
