

Voltage Stabilizer

SVC series

- This product is a servo motor-type high accuracy household voltage stabilizer.
- Low power consumption.
- Reliable work.
- High accuracy of stabilization.
- Good for use in regions where the net voltage is much fluctuating.
- Input voltage: AC50V-130V or 160V-250V
- With over current protector
- With output voltage indication
- Output voltage: AC220V/110V +2%
- With 110V/220V input voltage selector switch

Model	Rated power
SVC-500	500 W
SVC-1000	1000 W
SVC-1500	1500 W
SVC-2000	2000 W
SVC-3000	3000W
SVC-5000	5000W
SVC-7500	7500W
SVC-10000	10000W
