

Dual Display Capacitance Meter

Model: 830B

Features:

- 1- Auto ranging
- 2- Dual display simultaneously displays value and deviation from selected tolerance
- 3- Sort on preset tolerance of 1, 5, 10%
- 4- Program unique values to sort for specific circuit applications
- 5- USB PC interface for data logging software included

Specifications:

Capacitance range	from 1.0pF to 199.99mF
Power source	9V Battery
Battery life	80 hours typ. (alkaline, no back light)
Display	4 1/2 LCD (dual)
Display count	11,000
Operating temperature	32° to 122°F (0° to 50°C)
Storage temperature	-4° to 140°F (-20° to 60°C)
Dimensions (L x W x H)	7.24x3.42x1.61" (184x87x41 mm)
Accessories	Supplied: Test Leads, Manual, Battery, Software, PC Interface Cable Optional: TL-8 SMD Probe Carrying case: (Not included) LC-29B
