

Network Cable Tester

Model: 3LW8108

Main Functions:

- 1) Check type 5, 5e and 6 twisted cord network and trouble.
- 2) Check cable sequence
- 3) Use TDR (time domain reflect meter), Measure length and distance, find the trouble location.
- 4) Find the determined open circuit, short circuit, jumper or crossfire.
- 5) Service line test and no external adaptor is required.
- 6) Determine continuity and wiring pattern.

Features:

- 1) One person enough to complete cable continuity check.
- 2) Check wiring error in 5E, 6E, coaxial cable and telephone line such as open circuit, short circuit, jumper wire, reverse connection or cross-talk interference.
- 3) Locate the wiring or connection error.
- 4) Measure cable length and determine the distance of open circuit and short circuit.
- 5) Dynamically calibrate cable length and make length measurement as accurate as 97%
- 6) Simple and easy use...Big screen to display test result clear.
- 7) Portable unit with long battery life (wait-case 50 hours).
- 8) Automatically time-delay shut off.
- 9) Measure length and pair with or without far-end recognizer.
- 10) Locate cable and there are 8 far-end passive test jacks (ID No. ID1-ID8).
- 11) Far-end recognizer with prompting voice.
- 12) Self-checking function and automatically compensate any change in battery capacity or ambient temperature.
- 13) Single board computer software watchdog design and reliable operation.
