

GOLDSOURCE HY6410

Features:

- 1, high stability
- 2, built-in EMI filter
- 3, 100% full load burn-
- 4, Protection: overvoltage, overcurrent, overload, over temperature protection

Main technical parameters:

Input voltage: 110/220VAC $\pm 10\%$

Input Frequency: 47Hz-63Hz

Inrush current: Cold machine start 30A/115V, 60A/230V

Input leakage current: $<0.7\text{mA}/230\text{V}$

Output voltage range: 0-60VDC adjustable

Output current range: 0-10A adjustable

Strength: Input - Output: 1.5KVAC / 1

Input - enclosure: 1.5KVAC / 1

Output - Case: 500VAC / 1

Display and accuracy: LED digital display $\pm 1\% \pm 1$ word

Ripple and noise: $\leq 1\%$ (rms)

Voltage stability: $\leq 0.1 + 2\text{ mV}$

Current stability: $\leq 0.8\%$

Load stability: $\leq 0.1 + 2\text{ mV}$

Overall efficiency: $\geq 89\%$

Temperature and humidity: -10°C - 40°C 20% -90%

Storage temperature and humidity: -20°C - 80°C 20% -80%

Cooling: Intelligent temperature control fan

Made In China
