

## SANWA DCM600DR

### Features and Specifications:

- DC Current (DCA): 66.00/660.0A
- Alternating current (ACV): 66.00/660.0A
- DC Voltage (DCV): 600.0V
- AC Voltage (ACV): 600.0V
- Resistance  $\Omega$  : 999.9 $\Omega$
- Continuity Check : Buzzer sounds below about 40 $\Omega$  (open circuit voltage of approximately 2.9V).
- Frequency (Hz) (Voltage): 660.0Hz, 6.666kHz, 100kHz
- Frequency (Hz) (Current): 660.0Hz, 6.666kHz, 30.00kHz
- Maximum clamping diameter :  $\phi$ 30mm about
- Battery life : Approximately 40 hours continuous (non-illuminated backlight)
- Accessories : Test leads, carrying case
- Dimensions : 208HX69WX38Dmm
- Weight : 260g approx.
- Clamp digital media can be measured up to AC/DC600A - data
- True RMS measurement can
- Peak hold
- Zero Function
- Data Hold
- Auto power save
- Backlight

**Made In Japan**
