

M920 AC CURRENT LINE SPLITTER FOR USE WITH CLAMPMETERS

- Separates the positive and neutral conductors of power cords when testing AC amperage draw
- Receptacles are built in for testing voltage
- X10 range increases ACA measuring resolution
- 4 plug types available and the universal socket fits all types of plug over the world
- Maximum load: AC 250V, 15A
- High safety design
- Dimensions: 48x34x170mm

REF: 03M920X0400
☒ CE (EMC), ☐ UL, ☐ CE (LVD)
