

VC2002 2.0MHz FUNCTION GENERATOR

- 8 digits green LED display with annunciators
- Displays frequency and output voltage simultaneously
- Duty cycle, output voltage adjustable continuously
- High safety design

Technical specifications

Frequency range:

0.2Hz-2.0MHz

Output waveform:

Sine wave, square wave and triangle wave

Output voltage:

Direct: 0.9V~10V

ATT20dB: 100mV~1.0V

ATT40dB: 10mV~100mV

Sine wave distortion: $\leq 2\%$

Pulse duty: 20%~80%

Power: AC220V, $\pm 10\%$

Dimensions: 270x215x100mm

Weight:

REF: 012002X5400
