

VARIABLE TRANSFORMER 1500VA 3Ø

Model:TSGC -1.5K

Features:

This product possesses the peculiarity of waveform distortion,a small volume,a light weight,high efficiency,a convenient and reliable usage and a lasting running.It can be widely used in industry (chemical industry,metallurgy,equipment ,meter ,electro-machinery making,light industry,etc.)Scientific experiment.Public facility,home electric appliance,temperature-control,speed-regulation,light-regulation and power-control.That's an ideal alternating pressure regulating power source.

Specifications:

Input	3 ϕ 380 VAC
Output	3 ϕ 0 ~ 430 VAC
Temperature range	-15°C ~ +15
Maximum humidity	90%RH@25 °C
Weight	9.55 kgs
External package size	16x12x30 cm

Made in China
