

Desoldering Pump

Model: GS-100

PRODUCT SPECIFICATIONS

POWERFUL VACUUM, EASY TO CLEAN

GS-150, 154 and 158 are the anti-static series, and are more effective when used with the wrist strap.

Self cleaning Shaft

Shaft Lock

(GS-100, 104, 150, 154)

Self-cleaning Shaft

When set, the shaft emerges from the nozzle so that solder does not collect there.

Shaft Lock

Can be stored away quickly, easily and compactly by pushing the shaft inside the chamber while pressing the Vacuum Release button.

- Lightweight, economical and powerful. Removes solder with a strong vacuum.
- Operation is comfortable and comes with self cleaning shaft for easy maintenance.
- Large vacuum capacity deluxe type.

- Length: 330mm
- When Compacted: 240mm
- Weight: 89g
- Diameter: $\phi 23\text{mm}$
- Applicable Nozzle : GS-100N
