

MX-909

Safe, solderless, educational and fun!
Learn-N-Build 500 exciting projects with great fun!
Fact-filled illustrated lab-style manual included!
All-in-one! -500 electronic project experiments!

A great introduction to the world of advance electronics!
Learn-N-Build 500 exciting electronic experiments safely and easily!
Easy, quick, step by step learn the basics of electronics - No tools or soldering required!

Everything you need to build 500 exciting electronic projects:

- 1. Learn the basics of electronics and put your knowledge to work creating 500 different electronic experiments, special lighting effects, radio transmitter and receivers, amazing electronic sound effects, cool games and more!**
- 2 . Includes built-in breadboard for easy wiring and connection of components, and a LCD (liquid crystal display) indicates the information during the experiments in process**
- 3. Build your knowledge by exploring amplifiers, analog and digital circuits plus how to read schematic diagrams!**
- 4. Includes transistors, transformers, diodes, resistors, capacitors, phototransistors, CdS, integrated circuits, speaker, earphone, LEDs, LED digit display!**
