

CURVED JAW LOCK PLIER PROSKIT PN-378E

The **Proskit PN-378E Curved Jaw Lock Pliers** is a versatile hand tool designed for gripping, clamping, and holding objects securely. It features a curved jaw design, which provides a better grip on rounded or irregularly shaped objects. The locking mechanism allows the pliers to maintain a firm hold on the workpiece, freeing up your hands for other tasks.

Key Features:

1. **Curved Jaw Design:** Ideal for gripping rounded or cylindrical objects.
2. **Locking Mechanism:** Keeps the pliers securely clamped on the object.
3. **Adjustable Jaw Opening:** Allows for use on various sizes of objects.
4. **Durable Construction:** Made from high-quality materials for long-lasting performance.
5. **Ergonomic Handle:** Provides comfort and reduces hand fatigue during use.

Common Uses:

- **Plumbing:** Gripping pipes and fittings.
- **Automotive:** Holding parts during repairs.
- **DIY Projects:** Clamping materials together.
- **General Maintenance:** Versatile tool for various tasks.

Specifications:

- **Model:** Proskit PN-378E
- **Type:** Curved Jaw Lock Pliers

CURVED JAW LOCK PLIER PROSKIT PN-378E

- **Material:** Typically high-carbon steel or chrome-vanadium steel
- **Handle:** Often coated with non-slip material for better grip
- **Size:** Available in various sizes (check product details for exact dimensions)

Maintenance Tips:

- **Clean Regularly:** Wipe down the pliers after use to remove dirt and debris.
- **Lubricate:** Apply a light coat of oil to the moving parts to prevent rust and ensure smooth operation.
- **Store Properly:** Keep in a dry place to avoid moisture damage.
