

## CLAMP METER UNI-T UT210E

- **Multimeter**  
Function: It's not only a clamp meter, but also with multimeter function, you can test AC DC current/voltage, resistance, capacitance, Diode.
- **mA level AC/DC**  
resolution: 100A 1mA high resolution, it can test small current, multi-function fast response.
- **NCV Test:** It with noncontact electric field measure if you want to measure whether there is AC Voltage or electromagnetic field, you can choose range.
- **Small and Exquisite:**  
You can put it in your pocket for easy carrying.
- **VFC function:** Can reduce the interference of high-frequency signals on the measurement results.
