

CLAMP METER PROSKIT MT-3266

The **Proskit MT-3266** is a clamp meter designed for measuring electrical current, voltage, resistance, and other electrical parameters. Below is an overview of its key features and specifications:

Key Features:

1. **Clamp Meter Functionality:**
 - Measures AC current (up to 600A) without breaking the circuit.
 - Non-contact voltage detection for safety and convenience.
 2. **Multifunctional:**
 - Measures AC/DC voltage, resistance, continuity, and diode testing.
 - Frequency measurement and temperature measurement (with optional thermocouple).
 3. **Display:**
 - Large LCD backlit display for easy reading in low-light conditions.
 4. **Safety:**
 - Complies with safety standards (e.g., CAT III 600V, CAT IV 300V).
 - Built-in overload protection.
 5. **Data Hold:**
 - Freezes the displayed reading for easy recording.
 6. **Auto Power Off:**
 - Saves battery life by automatically turning off after a period of inactivity.
 7. **Compact and Portable:**
 - Lightweight and ergonomic design for easy handling.
-

CLAMP METER PROSKIT MT-3266

Specifications:

- **AC Current Measurement:** Up to 600A.
- **AC/DC Voltage Measurement:** Up to 600V.
- **Resistance Measurement:** Up to 60M Ω .
- **Frequency Measurement:** Up to 1kHz.
- **Temperature Measurement:** -20°C to 1000°C (with optional thermocouple).
- **Continuity Test:** Audible beep for low resistance.
- **Diode Test:** Yes.
- **Power Supply:** 1.5V AAA battery (included).

Applications:

- Electrical maintenance and troubleshooting.
- HVAC system diagnostics.
- Industrial and household electrical inspections.

Safety Tips:

- Always ensure the meter is set to the correct measurement mode before use.
- Avoid using the meter in wet or damp conditions.
- Regularly check the condition of the test leads and clamp for damage.
