

MAGNIFIER POCKET JIE NO.6901 5X

The "MAGNIFIER POCKET JIE NO.6901 5X" appears to be a compact, pocket-sized magnifying glass with a 5x magnification power. Here are some key details you might expect from such a product:

- **Magnification Power:** 5x, which means it can make objects appear five times larger than their actual size.
- **Design:** Pocket-sized, likely folding or compact for easy portability.
- **Lens Material:** Typically made of optical-grade glass or acrylic for clear and distortion-free viewing.
- **Use Cases:** Ideal for reading small print, inspecting fine details, or hobbies like stamp or coin collecting.
- **Brand:** "JIE" seems to be the brand or manufacturer, though it might not be widely recognized globally.
- **Model Number:** NO.6901, which is likely a specific model identifier.
