

MAGNIFIER HAND 3LED 6902AB 3X

It seems like you're referring to a magnifier with an integrated LED light, possibly a model number "6902AB" with 3x magnification. Here's a general breakdown of what this might entail:

1. **Magnification:** The "3x" indicates that the magnifier provides 3 times magnification, making small details easier to see.
2. **LED Lighting:** The "3LED" suggests that the magnifier is equipped with three LED lights, which provide bright, focused illumination to enhance visibility, especially in low-light conditions.
3. **Handheld Design:** The term "magnifier hand" implies that this is a handheld device, making it portable and easy to use for various tasks like reading small print, inspecting details, or working on intricate projects.
4. **Model Number:** "6902AB" is likely the specific model number, which can be used to identify the exact product for purchase or support.
