

CLAMP METER UNI-T UT203+

UNI-T UT203+ Digital Clamp Meter is a highly portable and versatile clamp meter that delivers precise AC and DC measurements with true RMS capabilities. Built to adhere to EN61010-1 safety standards (CAT II 600V/CAT III 300V), this digital clamp meter offers full-function protection to ensure a secure and reliable measurement experience. It not only handles basic measurements but also features high-precision current scales and high-voltage frequency measurement extensions.
